

# NCS Block 1950

NCS Block is easy to handle with colour samples sized for good colour judgement of colour combinations and for identifying colours on different materials and surfaces. The small blocks are comfortably held in the hand and fanned out in order to choose specific colours, which can be isolated for edge-to-edge comparison.

Well suited for working with colour combinations and as visual reference when making colour decisions. A perfect colour design tool for stores, showrooms, studios and other shared spaces.

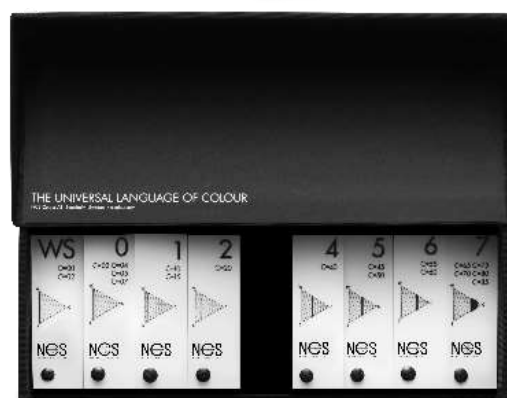

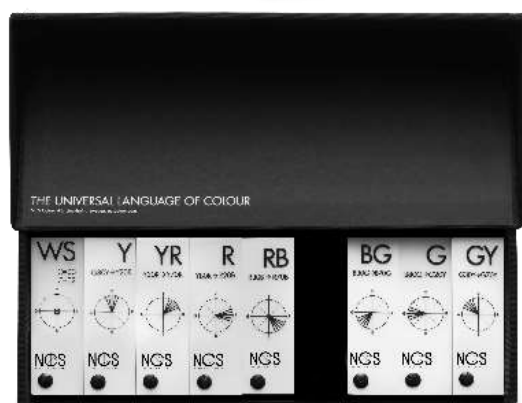

## COLOUR RANGE

- The complete range of NCS 1950 Original.

## COLOUR ARRANGEMENT

Two different options, hue or nuance arranged:

- The Block set arranged by hue has one block for Red, one for Red-Blue, one for Blue, etc. in total 9 blocks
- The Block set arranged by nuance has one block for colours with 10% chromaticness, one for 20% chromaticness, etc. in total 9 blocks
