

# NCS Block 1950

## (Hue & Nuance)

A visual referencing tool for working with colour combinations. A perfect colour design tool for stores, showrooms, studios and other shared spaces.

- Easy to handle with colour samples sized for good colour judgement.
- Perfect for colour combinations and for identifying colours on different materials and surfaces.
- Small blocks designed for comfortable held-by-hand use.
- Easily fanned out for efficient colour specification and choice.
- Perfect for edge-to-edge comparison.

### HOW THE COLOURS ARE ARRANGED

You have two options; a block arranged according to hue or a block arranged by nuance:

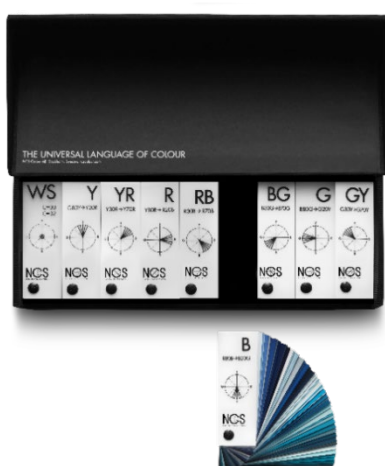

- **BLOCK ARRANGED BY HUE** has a total of nine blocks. One block for Red, one for Red-Blue, one for Blue and so on. This option is great if you tend to work with one colour, but different nuances. It works well for identifying the exact colour of an object or building, for example.
- **BLOCK ARRANGED BY NUANCE** has a total of nine blocks. One block for colours with 10% chromaticness, one for 20% and so on. This option is great for projects where you need to combine colours with balanced nuances or compare colours or create contrasts.

## COLOUR RANGE

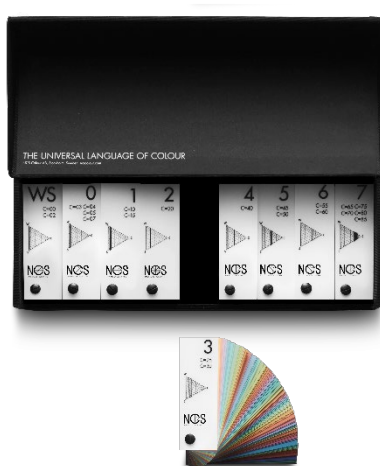

Complete with the NCS 1950 Standard Colour range. In other words, a total of 1950 colours covering the human visuality of colour.

## INCLUDED IN THE PRODUCT

- 1950 colours arranged in 9 smaller fan decks.
- NCS Notation printed on back of each colour sample.
- Black durable fabric cover (Regina).

Arranged by hue

Arranged by nuance
